The competition for sports in Chicago's premiere high schools is intense, and practice is crucial to maximizing scores. This workshop will help prepare 8th graders for any of the entrance exams required by various Chicago area schools:

- NWEA MAP & SEHS (for CPS selective enrollment high schools)
- ISEE (for private high schools)
- HSPT (for Catholic high schools)

Skills and content taught in the course will also prepare students to perform to their potential on placement exams at suburban high schools. Education Endeavours (EE) instructors have improved test scores for countless students and have gained extensive experience over their last decade of prep work. All sessions include practices tests, strategy discussion, and a thorough review of required topics, including reading comprehension, mathematics, and language skills.
