For those who prefer an education that's anything but textbook.

Why Baker?

Our teachers ...

Our teachers create an **academically rigorous environment**, but they do it in a way that recognizes the unique skills of each student in the classroom.

Our unique approach to teaching and learning ...

We focus on providing an education that's highly experiential, so that students can immediately apply what they are learning in the classroom to the world around them. **Learning happens at a much deeper level when students are able to apply the concepts they've learned.** So, our teachers are constantly creating experiences that profoundly enhance the learning in the classroom.

Our extraordinary range and quality of educational offerings ...

At Baker, **Art, Drama, Music, Technology, Dance, and Languages are an integral part of the curriculum.**

Our physical education program includes swimming and movement beginning in 1st grade and continuing through middle school. Students begin learning Spanish in preschool and beginning in middle school, Latin is added to the core middle school curriculum.

Our community ...

Baker Demonstration School is not just a school. **We are an inclusive community dedicated to equipping the next generation to thrive in our rapidly changing world.**

Did You Know?

Baker offers ...

- Full-day, play-based preschool and kindergarten
- Innovative, hands-on learning experiences
